CLASSIFIED FOREIGN SUPPLIED INFORMATION CONTAINED IN CIA RECORDS
(FOREIGN DERIVATIVE INFORMATION)

Whenever Classified foreign supplied information appears within a CIA Record, the following procedures are to be used:

DECLASSIFICATION

Classified foreign information may not be declassified unless specific instructions granting this authority from the source concerned have been received.

DOWNGRADING

1. When it is possible to ascertain the classification originally placed upon the information by the foreign source, then that level of classification will be retained.
2. When it is not possible to determine the original classification placed upon the information by the foreign source, all such information will be downgraded to Confidential.

DATA INPUT

On the Data Input sheet enter 55 in the Next Review Date Section.
